Hansen's Truck Stop  
2404 Sandy Prairie Road  
Fortuna, California  
Case No. 1NHU808

**Notice of No Further Action related to a release of Hydrocarbons:**

Comment Period ends **October 14, 2006**

**Problem Description**

During an investigation as part of a property transaction in October 1999, surface staining was identified on soils at the site. The soils were sampled and 19,000 parts per million of Total Petroleum Hydrocarbons (TPH) as diesel and 24,000 parts per million of TPH as motor oil along with sporadic and low levels of PCBs, dioxins, volatile and semi volatile organic compounds and various metals were identified.

**Remedial Actions Completed**

Between early 2002 and February 2006, the surface soils at the site have been cleaned. Four monitoring wells were installed and are in close proximity to the areas of highest surface contamination and in the down gradient direction. The wells were sampled quarterly between August of 2004 and February of 2006.

The site is enrolled in the industrial Storm Water general permit. Surface discharges are abated by the best management practices outlined in the Storm Water Pollution Prevention Plan.

**Status of Contaminants in Groundwater**

No petroleum contaminants were identified in groundwater above standard laboratory detection limits. All metals sampled have been below water quality objectives and are considered background levels.

**MTBE Status**

This is not an MTBE site.

**Consideration of No Further Action**

Regional Water Quality Control Board staff is considering no further action related to the investigation of discharges from the site. If the Regional Water Board does not receive significant comments by the end of the public comment period a letter will be transmitted to the discharger from the Executive Officer confirming that no further site cleanup related to the 1999 incident will be required. Records for the site are contained in a file identified as Hansen's Truck Stop and are available for review by calling (707) 576-2220. You may also contact Kasey Ashley at (707) 576-2673 or [kashley@waterboards.ca.gov](mailto:kashley@waterboards.ca.gov) with any questions.
